Editorial Review

From the Back Cover

The definitive self-teaching guide to learning mathematics--now fully up-to-date. Unlike other math books that make you start at page one and work your way up to the technique you need, this unique guide steers you right to your topic of interest, fully explains it within its own context, and then shows you how to use it with real-world examples.

The unique jump-in-anywhere format and conversational tone of Stan Gibilisco's and Norman Crowhurst's *Mastering Technical Mathematics* makes this book--now thoroughly updated--a must for just about any technical professional. It's also the perfect instruction manual for independent students who want to structure their own learning.

With this one-of-a-kind, case study-filled guide to all kinds of math used in technical fields, you can--find the technique you need quickly, along with easy-to-understand examples showing how it's used; skip from topic to topic in any order, and learn in your own style at your own pace; master technical math painlessly with this guide's easy-going style and example-packed format; discover new applications in logic, digital systems, and numbering systems; test yourself with quiz questions in each chapter (and complete worked-out solutions). If you work in a field where math comes with the territory, don't miss the guide that puts a multitude of math solutions right at your fingertips: *Mastering Technical Mathematics*, Second Edition.

About the Author

Stan Gibilisco is a professional technical writer who specializes in books on electronics and science topics. He is the author of *The Encyclopedia of Electronics*, *The McGraw-Hill Encyclopedia of Personal Computing*, and *The Illustrated Dictionary of Electronics*, as well as over 20 other technical books. His published works have won numerous awards. *The Encyclopedia of Electronics* was chosen a "Best Reference Book of the 1980s" by the American Library Association, which also named his *McGraw-Hill Encyclopedia of Personal Computing* a "Best Reference of 1996."

Users Review

From reader reviews:

Marcia Fullerton:

Do you have favorite book? If you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each e-book has different aim or maybe goal; it means that guide has different type. Some people sense enjoy to spend their a chance to read a book. They are really reading whatever they acquire because their hobby is reading a book. Consider the person who don't like examining a book? Sometime, man feel need book when they found difficult problem as well as exercise. Well, probably you will want this *Mastering Technical Mathematics*, 2nd edition.

Christina Moss:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? Yeah, you

can choose the suitable activity with regard to spend your time. Any person spent their spare time to take a go walking, shopping, or went to typically the Mall. How about open or maybe read a book entitled Mastering Technical Mathematics, 2nd edition? Maybe it is to become best activity for you. You recognize beside you can spend your time together with your favorite's book, you can smarter than before. Do you agree with the opinion or you have some other opinion?

April Young:

A lot of people always spent their free time to vacation or perhaps go to the outside with them family or their friend. Were you aware? Many a lot of people spent many people free time just watching TV, or even playing video games all day long. If you need to try to find a new activity that's look different you can read a book. It is really fun for yourself. If you enjoy the book you read you can spent all day every day to reading a book. The book Mastering Technical Mathematics, 2nd edition it is very good to read. There are a lot of people who recommended this book. These were enjoying reading this book. In the event you did not have enough space to develop this book you can buy often the e-book. You can m0ore easily to read this book from the smart phone. The price is not too costly but this book offers high quality.

Gloria Engstrom:

Playing with family in a park, coming to see the ocean world or hanging out with good friends is thing that usually you may have done when you have spare time, and then why you don't try point that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Mastering Technical Mathematics, 2nd edition, you could enjoy both. It is fine combination right, you still want to miss it? What kind of hangout type is it? Oh seriously its mind hangout guys. What? Still don't have it, oh come on its referred to as reading friends.
