## Divided World, Divided Class By Zak Cope

Divided World Divided Class charts the history of the labour aristocracy in the capitalist world system, from its roots in colonialism to its birth and eventual maturation into a full-fledged middle class in the age of imperialism. It argues that pervasive national, racial and cultural chauvinism in the core capitalist countries is not primarily attributable to false class consciousness, ideological indoctrination or ignorance as much left and liberal thinking assumes. Rather, these and related forms of bigotry are concentrated expressions of the major social strata of the core capitalist nations shared economic interest in the exploitation and repression of dependent nations.

## **Editorial Review**

### **Review**

Dr. Cope presents a thought provoking study of the political economy of the world system by focusing on the concept of a global labour aristocracy. Within the world system, which has also been described as a global apartheid system by some, enormous differences exist between workers' wages and living conditions, depending on where the workers are located. The author details how a global labour aristocracy in core countries benefits at the expense of workers in periphery countries. The mechanisms supporting such a situation are identified as exploitation, imperialism and racism. The book is a valuable contribution to globalization critique." -- Gernot Koehler, Professor, Sheridan College and author of The Global Wage System: A Study of International Wage Differences and Global Economics
