## Lecture Notes: Radiology By Pradip R. Patel

Radiology plays an invaluable role in the initial diagnosis and subsequent management of patients and this fully revised and updated new edition of *Lecture Notes: Radiology* presents the essential core knowledge needed by medical students, junior doctors on the Foundation Programme, specialist nurses and staff in the radiology department.

Organized by body systems, it provides a fundamental understanding of radiology as it focuses on imaging techniques, basic film interpretation, and specialized radiological investigation. It emphasizes the pattern of disease as seen on commonly used X-rays and contrast examinations, with explanatory notes on further investigations by imaging techniques such as ultrasound, CT and MRI.

*Lecture Notes: Radiology* contains new and updated images and illustrations, an expansion of the skeletal trauma section, 'Key points' boxes, and increased use of bulleted text, making it ideal for study and revision.
