### Editorial Review

#### Review

“What a difference in Tompkins's [*Literacy for the 21<sup>st</sup> Century: Teaching Reading and Writing in Pre-Kindergarten through Grade 4*] 2/e! It's more than 33% revised, it's a true new edition. [I] very much enjoyed realizing how much better, tighter, and in-depth she got this time around. I've always appreciated her thoroughness and her teacher-friendliness--and this edition maintains her style well.”

Marie Ann Donovan, Ed.D.  
Associate Professor of Education

#### From the Back Cover

*Tompkins' text reflects a solid approach to the intricacies of early reading instruction. She covers all aspects that I would find essential, critical, and relevant. The various spotlights, vignettes, figures and summaries support the text and help amplify it. The Compendium is an invaluable resource and a constant reference point!*

Armin R. Schulz, California State University, Stanislaus

This unique text prepares you to teach young readers and writers by taking you into successful classrooms, helping you prepare for your own classroom, and giving you the practical tools to take with you. Paying particular attention to the needs of these early learners, the text provides recommendations for preventing early learning difficulties and suggestions for helping pre-kindergarteners develop literacy abilities. You'll also find tools to help you adjust lessons for English learners, as well as minilessons and step-by-step guidance for strategy and skill instruction. The second edition of *Literacy for the 21<sup>st</sup> Century: Teaching Reading and Writing in Pre-Kindergarten Through Grade 4* presents a thoughtful, balanced approach to teaching literacy specifically in the early grades.

- The **Compendium of Instructional Procedures** is a robust resource of instructional methods designed to get you up and running quickly in your own literacy classroom.
- **Expanded! Nurturing English Learners** features provide thoughtful considerations for adapting lessons for this audience of learners.
- **New! Preventing Reading and Writing Difficulties** features help you quickly address and correct potential problems that could inhibit young learners' literacy development.
- A complete chapter on assessment lays a solid foundation and provides **Assessment Tools** to evaluate your students' progress in early literacy.

*The author does a great job of building background knowledge especially for pre-service and beginning teachers. The Compendium of Instructional Procedures is wonderful for quick stop-n-shop for each strategy. It helps to simplify each strategy and newly learned concept so that pre-service teachers can easily implement them in their clinical/field experiences. Good job, too, of integrating information about addressing the needs of English language learners throughout the text.* Kantaylieni Hill-Clark, University of Memphis
