## **Editorial Review**

### Review

"This is one of the top books in geriatric medicine because of its usefulness to both clinicians and families."- Vincent Carr, DO, MSA, FACC, FACP(Uniformed Services University of the Health Sciences) **Doody**

**Review: 5 stars** "It is not a formal textbook but more of a supportive manual of common issues and problems that we face in daily practice. This to me is major plus of this book, it deals with common and everyday situations and as the title suggests it uses case based scenarios. Overall this is a useful, well written, practical elderly medicine book, ideal for use in primary care. It is reasonable priced and an excellent addition to the bookshelf, virtual or real". **Reviewed by:** Dr Harry Brown, July 2014
