Detective Charlie Parker returns in another chilling thriller - a must-read for fans of Michael Connelly and Jeffery Deaver. The border between Maine and Canada is porous. Anything can be smuggled across it: drugs, cash, weapons, people. Now a group of disenchanted former soldiers has begun its own smuggling operation, and what is being moved is infinitely stranger and more terrifying than anyone can imagine. Anyone, that is, except private detective Charlie Parker, who has his own intimate knowledge of the darkness in men's hearts. But the soldiers' actions have attracted the attention of the reclusive Herod, a man with a taste for the strange. And where Herod goes, so too does the shadowy figure that he calls the Captain. Editorial Review

From Publishers Weekly

Starred Review. Ancient artifacts and the second Iraqi War provide the backdrop for Connolly's outstanding ninth novel featuring PI Charlie Parker (after *The Lovers*). When the former NYPD homicide detective looks into the suicide of an Iraq war veteran, he discovers that several members of the soldier's unit have also killed themselves and that they may have been involved in smuggling looted treasures into the U.S. Parker begins to fear that the returning soldiers have brought back more than their own personal demons. As he races to find an antique golden box before it falls into the wrong hands, Parker discovers that he's being shadowed by the enigmatic Collector, a repulsive killer whose nature is as problematic as that of Parker himself. Connolly displays a real knack for fusing the detective and horror genres, providing a rational chain of evidence and deduction for the plot while simultaneously creating a real atmosphere of numinous dread that reminds us that mystery can refer to more than a mundane tale of crime and human justice.

Review

A tour de force finale in a book which will sure be a bestseller this summer. It well deserves to be. Independent on Sunday Brilliant, terrifying and effortlessly seductive, I defy anyone to put this thriller down - it is sensational. Daily Mail Another creepy thriller from a modern master. Daily Mirror This is one of Connolly's darker, scarier novels, all the more effective for the way the supernatural elements arise organically out of the realistic detail. Guardian Connolly subtly combines the supernatural with the traditional crime story to superb effect. And in *Herod*, a man being eaten by cancer, he may have created his creepiest villain yet. Sun As ever with Connolly, the macabre narrative is couched in prose that is often allusive and poetic. Barry Forshaw, Independent His latest plot is a clever mixture of quest and chase, written in prose that unfolds at warp speed. Observer Supernatural thriller by Dublin's finest. Herald Magazine
