Emergency Sedation and Pain Management (Cambridge Medicine (Hardcover)) By John H. Burton, James Miner

Presented in an easily accessible, clinically oriented format, Emergency Sedation and Pain Management is a comprehensive medical text addressing emergency sedation and analgesia with specific emphasis on treatment of the emergency department patient. The text presents a clinical approach to the treatment of pain in emergency patients, including pediatric and adult populations. Analgesia, sedation, and anesthetic techniques are presented in an informative, authoritative, and concise format - written and edited by physicians with extensive research as well as clinical emergency medicine expertise. The chapters are richly supplemented with tables, photographs, and step-by-step illustrations.

Editorial Review

Review

'Were you to judge a book by the cover ... you might be forgiven for thinking that this one is purely for the medics. Closer inspection, however, reveals a veritable explosion of materials, all relevant to emergency nurses, and all revealing the finer points of pain management in utterly glorious technicolour. ... Scanning the book for the first time, I could feel myself being sucked in, wanting to read it chapter and verse ...

Throughout the book, readers should enjoy the short, punchy chapters, all of which are richly referenced. ... For those with a special interest in pain management, I would recommend investing in this book for yourself, but otherwise I would suggest a whip round to purchase this fantastic resource for your own department.'

International Emergency Nursing

About the Author

John Burton, M.D., has been the Residency Program Director in Emergency Medicine and a Professor of Emergency Medicine at Albany Medical College in Albany, NY, since 2006. From 1999 to 2003, Dr. Burton was the Medical Director for Maine Emergency Medical Services and, from 1995 to 2006, he worked in the Department of Emergency Medicine at the Maine Medical Center in Portland, Maine. He was the founding Research Director in the Department of Emergency Medicine at Maine Medical Center. Dr Burton's areas of research interest are procedural sedation and analgesia, emergency medical services, and management of cardiovascular emergencies. He has published extensively in the emergency medicine literature on these and related topics. He has received awards and peer recognition throughout his academic career noting a commitment to the specialty of emergency medicine. Dr Burton completed medical school at the University of North Carolina at Chapel Hill in 1992, and residency training at the University of Pittsburgh Affiliated Residency in Emergency Medicine in 1995.

Users Review
