### Absolution Gap (Revelation Space Book 3) By Alastair Reynolds

They are ancient killing machines, designed to locate and destroy any life form reaching a certain level of intelligence. Now, stirred from eons of sleep, the Inhibitors have descended on their latest target: Humanity." "The first wave of Inhibitors has sent war veteran Clavain and a ragtag group of refugees into hiding. Their leadership is faltering, and their situation is growing more desperate. But their little colony has just received an unexpected visitor: an avenging angel with the power to lead mankind to safety - or draw down its darkest enemy." As she leads them to an apparently insignificant moon light-years away, it begins to dawn on Clavain and his companions that to beat one enemy, it may be necessary to forge an alliance with something much worse.

### Editorial Review

From Publishers Weekly

The final volume in British author Reynolds's SF trilogy that began with *Revelation Space* (2001) fulfills all the staggering promise of the earlier books, and then some. The world Hela, an airless moon of the gas giant Haldora, is remarkable for two things: relics of the extinct alien race called the scuttlers, and the Quaicheist faith, whose observers (aided by infection with a virus that induces religious fervor) watch Haldora in the hope of viewing one of its mysterious, split-second disappearances. Church records show the disappearances are slowly increasing in frequency and duration. Rumors abound, and arriving pilgrims confirm that Haldora's changing behavior is a sign of the end times. When his indoctrinating virus weakens on occasion, however, Quaicheist founder Horris Quaiche has other ideas—as does young iconoclast Rashmika Els, self-taught scuttler archeologist. Meanwhile, unhappy war veteran Nevil Clavain leaves self-imposed exile on the planet Ararat to help his friend, human-pig hybrid Scorpio, and rejoin the battle against the implacable Inhibitors, "wolf" machines that seek out and destroy star-faring civilizations. From a slow start, Reynolds's plot rapidly builds momentum, hurtling to a stunning conclusion. Cinematic imagery and strong characters ably carry this juggernaut of a story, with Big Ideas strewn about like pebbles on a beach. It's not the best book to introduce Reynolds to those who've never read him, but it's without a doubt a fitting finale to the series, a landmark in hard SF space opera.

Review

"A book of great fascination, rich description, and memorable action."—**Locus**

"Reynolds writes a lean and muscular prose where the intense action scenes are leavened with the kind of bright, shining, mind-boggling science talk that characterizes the best of post-modern space opera."—**Science Fiction Weekly**

Review

"A terrific treat...rendered with the authentic voice of a working scientist. Ferociously intelligent and imbued with a chilling logic--it may really be like this Out There."

### Users Review

**From reader reviews:**

**Robert Sanders:**

Do you one among people who can't read gratifying if the sentence chained inside the straightway, hold on guys this particular aren't like that. This Absolution Gap (Revelation Space Book 3) book is readable by you who hate the straight word style.
