Spandau Phoenix: A Novel By Greg Iles

From the #1 *New York Times* bestselling author of the Penn Cage series comes a heartstopping thriller about one of the great unsolved mysteries of World War II.

The Spandau Diary—what was in it? Why did the secret intelligence agencies of every major power want it? Why was a brave and beautiful woman kidnapped and sexually tormented to get it? Why did a chain of deception and violent death lash out across the globe, from survivors of the Nazi past to warriors in the new conflict now about to explode? Why did the world's entire history of World War II have to be rewritten as the future hung over a nightmare abyss?

“Entirely plausible, totally engrossing...a remarkable, impressive novel.”—Nelson DeMille

“An incredible web of intrigue and suspense, an avalanche of action from first page to last.”—Clive Cussler

Editorial Review

From Publishers Weekly

A neo-Nazi/South African cartel plots to destroy Israel. BOMC selection in cloth.

Copyright 1994 Reed Business Information, Inc.

From Library Journal

Rudolph Hess--Spandau prisoner number 7--dies in 1987. When a secret "Hess diary" is found at Spandau by a West German policeman, the various police and intelligence agencies stationed in Berlin become even more interested in Hess's 1941 flight to England. Did Hess have highly placed contacts there? Was he alone? Was his well-trained double captured instead? The chain reaction from the diary's discovery explodes around West Germany, England, and South Africa, uncovering secret alliances and double agents. This first novel, which attempts to fill in history's blanks and to tie the past with the present, has action, characters, and violence to spare. But the body count is high, even for this genre, and the novel loses its impact long before the end of the drawn-out plot. An optional purchase for large popular fiction collections.

From Kirkus Reviews

Long but largely rewarding first thriller in which the apparent suicide of imprisoned Nazi Rudolf Hess sets the KGB, the Stasi, the CIA, Israelis, South Africans, and the Berlin police to chasing each other and some embarrassing papers--which may or may not have been written by Mr. Hess, who may or may not have been Mr. Hess. It's the late 80's, and the cracks in the Eastern bloc are just starting to show. Berlin is still controlled by the WW II Allied powers, who've spent millions to keep Hess locked up in Spandau Prison. It was Hess who made the mysterious flight to England at the beginning of the war, supposedly to seek a separate peace through negotiations with sympathetic aristocrats. Now, the prisoner has hung himself. Or has he? He's certainly dead, but it may have been murder. There has always been doubt about his identity--and the Russians have always been strangely adamant about paroling the old fascist. Then, as Spandau is being razed, Hans Apfel, a young German policeman, finds a hidden sheaf of papers written in Latin by the old prisoner, a document that, if released, will prove immensely embarrassing to a number of people, including the British royal family, a good hunk of the British aristocracy, and far too many German policemen on both sides of the Iron Curtain. A long line forms to try to get the papers back from Apfel, who wants to sell them, and his pretty wife Ilse, who wants to turn them in. Things become terribly violent terribly quickly, and Hans has to accept help from his estranged father, the best cop in Berlin.... The central mystery, why Hess went to England and why so many people don't want the truth to get out, isn't quite interesting enough to last the great length here. It's up to a few heroic, middle-aged policemen to hang onto the reader. They're usually successful. -- *Copyright ©1993, Kirkus Associates, LP. All rights reserved.*

Users Review

From reader reviews:

Michelle Porter:

Have you spare time to get a day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity for spend your time.
