## The Archaeologist's Laboratory: The Analysis of Archaeological Data (Interdisciplinary Contributions to Archaeology) By E.B. Banning

This text reviews the theory, concepts, and basic methods involved in archaeological analysis with the aim of familiarizing both students and professionals with its underlying principles. Topics covered include the nature and presentation of data; database and research design; sampling and quantification; analyzing lithics, pottery, faunal, and botanical remains; interpreting dates; and archaeological illustration. A glossary of key terms completes the book.

### Editorial Review

#### Review

"This book looks like a real boon. Teachers will welcome it; "Where's my Banning?!" will become a common cry among students; and it will be welcome among contract archaeologists and amateur groups too."

*(Antiquity, 75, 2002)*

"[...] I use this text in my upper level introductory lab course. [...] **The Archaeologist's Laboratory** provides the breadth and detail that allows instructors to pick and choose what they want to use. [...] Overall, I consider this to be the best archaeological lab. book on the market. The students all agreed that the text was clearly written and easy to understand. If ordered as a text for a class of six or more students, the price is reduced... In sum, both my students and I highly recommend this text."

*(Lisa Nagaoka, University of North Texas (Geoarchaeology, An International Journal, 17:8, 2002)*

"Banning has succeeded admirably well in producing a fine work for his target audience. [...] Banning's clear writing style and ability to boil down challenging concepts so that they are easily understandable for the undergraduate student (and the professors who must instruct them!) make this an immensely useful reference tool."

*(Randall W. Younker, Andrews University (Bulletin of the American Schools of Oriental Research, 328, 2002)*

### Users Review

#### From reader reviews:

##### Susie Vadnais:

What do you with regards to book? It is not important with you? Or just adding material when you really need something to explain what your own problem? How about your extra time?
