### Editorial Review

#### Amazon.com Review

In this international bestseller, Peter Høeg successfully combines the pleasures of literary fiction with those of the thriller. Smilla Jaspersen, half Danish, half Greenlander, attempts to understand the death of a small boy who falls from the roof of her apartment building. Her childhood in Greenland gives her an appreciation for the complex structures of snow, and when she notices that the boy's footprints show he *ran* to his death, she decides to find out who was chasing him. As she attempts to solve the mystery, she uncovers a series of conspiracies and cover-ups and quickly realizes that she can trust nobody. Her investigation takes her from the streets of Copenhagen to an icebound island off the coast of Greenland. What she finds there has implications far beyond the death of a single child. The unusual setting, gripping plot, and compelling central character add up to one of the most fascinating and literate thrillers of recent years.

#### From Publishers Weekly

The title of this quiet, absorbing suspense novel by a Danish author only suggests the intriguing story it tells. After young Isaiah Christiansen falls from a snow-covered roof in present-day Copenhagen, something about his lone rooftop tracks--and the fact that the boy had a fear of heights--obsesses Smilla Qaavigaaq Jaspersen, a woman who had befriended him. Smilla is 37, unmarried, and, like Isaiah, part of Denmark's small Eskimo/Greenlander community. She is also a minor Danish authority on the properties and classification of ice. Her search for what had frightened the boy leads her to uncover information about his father's mysterious death on a secret expedition to Greenland, a mission funded by a powerful Danish corporation involved in a strange conspiracy stretching back to WW II. As related in Smilla's sober, no-nonsense narration, the plot acquires credibility even as its details become more bizarre. While the novel will probably be compared to *Gorky Park*, Høeg has much more to offer, both in terms of his impeccable literary style and in the glimpses he provides of an utterly foreign culture. Its chief virtue, however, is the narrator: Smilla is never less than believable in her contradictions--caustic, caring, thoughtful, impulsive, determined and above all, rebellious. Smoothly translated by Nunnally, this is Høeg's third novel, but the first to appear in English. A dark, taut, compelling story, it's a real find. 40,000 first printing; \$50,000 ad/promo; BOMC selection.

#### From School Library Journal

YA-A compelling and suspenseful adventure about a solitary 37-year-old Greenlander, an unemployed glaciologist who lives in Copenhagen. Smilla Jaspersen is caught between the pull of her Inuit roots and the restrictions and demands of the modern industrial world. The story begins when her six-year-old neighbor falls from a snow-covered roof, and it is declared an accidental death. She and the boy were close friends, and she was keenly aware of his abnormal fear of heights. This, together with her keen Inuit understanding of snow, causes her to doubt that it was an accident. When she questions the local authorities they are not interested, and she begins to make inquiries on her own. Her investigation takes her from shipyards, corporate headquarters, and the dark back streets of the Danish capital to a secretive voyage along the icy Greenland coast. Mysterious characters, violent encounters, and an intriguing puzzle propel the story along. The final scenes rapidly accelerate in action and suspense. It's a rare thriller that has such a strong, fascinating female protagonist, but this book also excels in story and characterization. It's a winner.
