## Teaching the Animal: Human-Animal Studies across the Disciplines From Brand: *Lantern Books*

In 2008, Lantern published *Social Creatures*, an encyclopedic collection of articles from the new and exciting discipline of Human-Animal Studies. **Teaching the Animal** is a followup collection of original pieces that discuss in detail the challenges and opportunities for all teachers of H.A.S.

Split into three sections, **Teaching the Animal** provides in-depth analysis of the nature of the discipline, the resources available, expectations of students and faculty, and a number of sample curricula in the fields of humanities, social sciences, and the natural sciences.

**Teaching the Animal** promises to be the definitive handbook for all teachers of H.A.S. at both undergraduate and graduate levels. It also offers a comprehensive overview of the state of the disciplines in question, as well as the philosophical and practical issues involved in discussing the intersections of human and nonhuman animals in society.
