Is it in the magician's hat? Maybe it's in the mailbox or hiding in the jack-o'-lantern? Don't forget to look in the barnyard where the hen awaits the arrival of her new little chicks. Could that be where eleven went?

Eve Merriam and Bernie Karlin take young readers on a counting adventure as they demonstrate twelve witty and imaginative ways to get to eleven.

### Editorial Review

From Publishers Weekly

Lively combinations of items add up to 11 in what PW called "a counting book with an innovative twist."

Ages 2-6.

Copyright 1996 Reed Business Information, Inc.

From Kirkus Reviews

From the late poet, a whimsical exploration of enumeration. On each colorful spread, like and dissimilar--but somehow related--objects total 11: ``Out of the magician's hat: four banners, five rabbits, a pitcher of water, and a bouquet of flowers"; or, ``Go past four corners and two traffic lights, then past the house with two chimneys and the garage with two cars and a bicycle. Now look, you're at Eleventh Street"; and, more obscurely since the first item is made known only by its absence, ``Six bites, a core, a stem, and three apple seeds." Karlin's cheerful collages feature light, bright colors and bold designs incorporating a clean, weighty sans-serif type. An attractive book that invites the logical investigation of more concepts than most counting books. (Picture book. 4-8) -- *Copyright ©1993, Kirkus Associates, LP. All rights reserved.*
