### **Boundaries, Territory and Postmodernity (Routledge Studies in Geopolitics)**

By David Newman

Contributions to this collection seek to determine the extent to which states and boundaries have, in fact, disappeared, or are simply changing their functions as we move from an era of fixed territories into a post-Westphalian territorial system. A group of international political geographers and political scientists examine the changing nature of the state, pointing to significant changes on the one hand, but equally noting the continued importance of territory and boundaries in determining the political ordering of the post-modern world.

**'Adds important pieces to the puzzle which makes up global politics.'** - *Millenium: Journal of International Studies*

**'This is a book which deserves a much larger popular audience interested in and capable of appreciating the important issues discussed and debated but obscured by the overly scholastic-academic jargon.'** - *Contemporary Review*

**'This book is really worth reading, whether you were interested in territoriality, post-modern world, boundaries, geopolitics or ethnic conflict.'** - *Ethnic Conflict Research Digest*
