Oxford Textbook of Musculoskeletal Medicine From Oxford University Press

Musculoskeletal medicine is now recognised as a distinct branch of medicine, incorporating the sub-specialities of manual medicine, orthopaedic medicine, and the neuromusculoskeletal component of osteopathic medicine. The editors of this volume have been active in promoting the discipline worldwide, and this new edition is the ideal reference for doctors and therapists wishing to expand and improve their skill base, or to further their careers and academic accomplishments, to the benefit of the patient.

With contributions from international experts, *Oxford Textbook of Musculoskeletal Medicine 2e* is an authoritative account of the basis of musculoskeletal medicine in contemporary medical society. It provides the reader with advanced knowledge of the conceptual basis, diagnostic challenge, and pragmatic management of the neuromusculoskeletal system.

Now with almost 500 illustrations, this is a practical, easy-to-read text with a clinical focus. New chapters cover the latest evidence on efficacy and effectiveness of management strategies, the provision of services, and the latest developments in musculoskeletal ultrasound, making this new edition a comprehensive reference on musculoskeletal medicine. This print edition of The Oxford Textbook of Musculoskeletal Medicine comes with a year's access to the online version on Oxford Medicine Online. By activating your unique access code, you can read and annotate the full text online, follow links from the references to primary research materials, and view, enlarge and download all the figures and tables.

Editorial Review

Review

"I would recommend this textbook to seasoned rheumatologists with an interest in orthopedic medicine and regional MSK syndromes. Physiatrists, physiotherapists, chiropractors, and sports medicine specialists will also find the material intriguing." -*The Journal of Rheumatology*

About the Author

Michael Hutson, *Royal London Hospital for Integrated Medicine, London, UK*, Adam Ward, *Department of Musculoskeletal Medicine, Royal London Homoeopathic Hospital, London, UK*

Dr Michael Hutson joined the RLHH's Department of Musculoskeletal Medicine in January 2010 bringing with him 40 years' experience of the diagnosis and management of injuries and disorders of the musculoskeletal system. He qualified from Cambridge University and at St Thomas' Hospital in London. He is past President of International Federation of Manual/Musculoskeletal Medicine (FIMM), past Chairman of the International Academy of Manual/Musculoskeletal Medicine, and past President of British Institute of Musculoskeletal Medicine (BIMM).

Dr Adam Ward qualified from Westminster Hospital Medical School and has a Master's degree from the University of London. He completed his specialist training in orthopaedic and musculoskeletal medicine in Paris, and is currently a senior consultant and director of the Department of Musculoskeletal Medicine at the Royal London Hospital for Intergrated Medicine.

Dr Ward has published papers, articles and book chapters both in the medical and lay press and has broadcast on BBC Radio 2, Radio 4 and the World Service. His medical interests cover all aspects of orthopaedic and musculoskeletal medicine including prevention, treatment and lifestyle management. He was the first NHS consultant in the specialty and maintains an active interest in communicating, in all its aspects, the importance of musculoskeletal health.

Users Review

From reader reviews:

Barbara Cook:

Typically the book Oxford Textbook of Musculoskeletal Medicine has a lot associated with on it. So when you check out this book you can get a lot of profit. The book was published by the very famous author. The writer makes some research ahead of write this book. That book very easy to read you can find the point easily after looking over this book.

Maria Vanness:

People live in this new day of lifestyle always attempt to and must have the spare time or they will get great deal of stress from both daily life and work. So , once we ask do people have time, we will say absolutely of course. People is human not only a robot. Then we request again, what kind of activity have you got when the spare time coming to anyone of course your answer will certainly unlimited right. Then do you try this one, reading textbooks. It can be your alternative within spending your spare time, often the book you have read is definitely Oxford Textbook of Musculoskeletal Medicine.

Willie McCorkle:

Playing with family in a park, coming to see the marine world or hanging out with close friends is thing that usually you might have done when you have spare time, after that why you don't try issue that really opposite from that. One activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Oxford Textbook of Musculoskeletal Medicine, you may enjoy both. It is fine combination right, you still wish to miss it? What kind of hang-out type is it? Oh seriously its mind hangout fellas. What? Still don't have it, oh come on its referred to as reading friends.

Dorothy Saunders:

Are you kind of stressful person, only have 10 or maybe 15 minute in your day to upgrading your mind expertise or thinking skill possibly analytical thinking? Then you have problem with the book when compared with can satisfy your short space of time to read it because this time you only find guide that need more time to be learn. Oxford Textbook of Musculoskeletal Medicine can be your answer because it can be read by you actually who have those short extra time problems.
