## Plane Queer: Labor, Sexuality, and AIDS in the History of Male Flight Attendants By Phil Tiemeyer

In this vibrant new history, Phil Tiemeyer details the history of men working as flight attendants. Beginning with the founding of the profession in the late 1920s and continuing into the post-September 11 era, *Plane Queer* examines the history of men who joined workplaces customarily identified as female-oriented. It examines the various hardships these men faced at work, paying particular attention to the conflation of gender-based, sexuality-based, and AIDS-based discrimination. Tiemeyer also examines how this heavily gay-identified group of workers created an important place for gay men to come out, garner acceptance from their fellow workers, fight homophobia and AIDS phobia, and advocate for LGBT civil rights. All the while, male flight attendants facilitated key breakthroughs in gender-based civil rights law, including an important expansion of the ways that Title VII of the 1964 Civil Rights Act would protect workers from sex discrimination. Throughout their history, men working as flight attendants helped evolve an industry often identified with American adventuring, technological innovation, and economic power into a queer space.

### Editorial Review

#### Review

"A stunning success and an enormously important contribution to not only LGBT history, but also to the labor, feminist, legal, aviation, and AIDS historiographic literatures. . . . *Plane Queer* is essential reading for anybody interested in LGBT history. . . . Pick the book up. Read it. You won't be disappointed, I promise."

(Chrislove *Daily Kos* 2013-10-08)

"In this seemingly narrow demographic, Tiemeyer finds notable achievements in equal rights, from the first workplace health benefits for domestic partners, in 2001, to a 1984 legal decision forcing an airline to reinstate a flight attendant with AIDS, which he argues was a key step in the run-up to the 1990 Americans With Disabilities Act."

(Don Sapatkin *Philadelphia Inquirer* 2013-04-23)

"Tiemeyer's fascinating, in-depth study reveals that the very assumption that male flight attendants are gay has led to major conflicts--and major progress."

(Jim Gladstone *Passport Magazine* 2013-08-01)

#### From the Inside Flap

"Tiemeyer takes a completely original approach to a fascinating subject in aviation history and American history. He deftly reconstructs the careers of gay flight attendants and relates them to changes in urban nightlife, the technological and regulatory revolutions in aviation, the cold war backlash against homosexuality, the civil rights movement, feminism, neoliberalism, and the AIDS pandemic. His postmortem on the "patient zero" legend of Gaëtan Dugas is nothing short of a revelation."—David Courtwright, author of *Sky as Frontier*

"Phil Tiemeyer's terrific book delivers the long, forgotten history of the male flight attendant. That history stretches back to the dawn of commercial aviation, and was characterized by waves of toleration and scorn in which the male steward was repeatedly drawn in and then forced out of the occupation. Through jack-of-all-trades research methods, Tiemeyer has broken the boundaries that separate labor, legal, and LGBT history, and given us a unique vantage on the history of AIDS. Pioneering and important." —Margot Canaday, author of *The Straight State: Sexuality and Citizenship in Twentieth Century America*

"*Plane Queer* demonstrates the usefulness of thinking about the treatment of workers seen as "gender-queers": those who refuse to act in the ways expected of individuals of their sex, regardless of their own sexual orientation. In doing so, he expands notions of gender rights, queer rights, and the impact of homophobia on all workers." —Ileen A. DeVault, Professor of Labor History, Cornell University

About the Author

**Phil Tiemeyer** is Assistant Professor of History at Philadelphia University.

## **Users Review**

### **From reader reviews:**

#### **Alberto Meyer:**

As people who live in the modest era should be update about what going on or data even knowledge to make these people keep up with the era which is always change and make progress. Some of you maybe will certainly update themselves by reading through books. It is a good choice for you but the problems coming to anyone is you don't know which one you should start with. This Plane Queer: Labor, Sexuality, and AIDS in the History of Male Flight Attendants is our recommendation to help you keep up with the world. Why, because book serves what you want and need in this era.

#### **Christopher Jones:**

Precisely why? Because this Plane Queer: Labor, Sexuality, and AIDS in the History of Male Flight Attendants is an unordinary book that the inside of the book waiting for you to snap that but latter it will zap you with the secret the idea inside. Reading this book next to it was fantastic author who have write the book in such wonderful way makes the content interior easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you for not hesitating having this any more or you going to regret it. This excellent book will give you a lot of advantages than the other book possess such as help improving your talent and your critical thinking way. So , still want to hesitate having that book? If I have been you I will go to the guide store hurriedly.

#### **Susanne Pineda:**

That reserve can make you to feel relax. This specific book Plane Queer: Labor, Sexuality, and AIDS in the History of Male Flight Attendants was colorful and of course has pictures on the website. As we know that book Plane Queer: Labor, Sexuality, and AIDS in the History of Male Flight Attendants has many kinds or style. Start from kids until youngsters. For example Naruto or Detective Conan you can read and think that you are the character on there. Therefore not at all of book are make you bored, any it makes you feel happy, fun and relax. Try to choose the best book for yourself and try to like reading that.

#### **Anthony Koch:**

As a college student exactly feel bored to be able to reading. If their teacher requested them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's soul or real their hobby. They just do what the educator want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that examining is not important, boring and also can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Plane Queer: Labor, Sexuality, and AIDS in the History of Male

Flight Attendants can make you truly feel more interested to read.
