The Book of Time #1: The Book of Time By Guillaume Prevost

Scholastic introduces the next name in YA adventure: Guillaume Prevost, whose Book of Time trilogy is one part DA VINCI CODE, one part DRACULA, one part THE TIME-TRAVELER'S WIFE, and all thrilling.

A statue; a coin; an old book. They look as dusty as everything else in the Faulkner Antiquarian Bookstore, where 14-year-old Sam Faulkner seeks his father, who's been missing for days. But when Sam slips the coin into the statue, he's swept back in time -- to Scotland in 800 A.D. -- where he must find both the statue and another coin in order to return to the present. It's the first step in an adventure that will take him to ancient Egypt, World War I, even Dracula's castle -- and a mystery that will end only when Sam saves his father, or loses him in time . . .

Editorial Review

Dramatic cover art will draw readers to this time-travel story, and the fast-paced adventure will hold their interest. Sam's father has been missing for 10 days. Searching a dusty bookstore for clues, Sam discovers a hidden room containing an old book, a strange coin, and an oddly carved stone that send him on a gut-wrenching journey back to medieval Iona, just in time for a Viking invasion. Next, he lands in France during World War I, then in ancient Egypt. After he returns, Sam struggles to understand how the time-travel device works and what it all means. The book ends as he discovers that his father, imprisoned in the castle of Vlad Tepes (a.k.a. Dracula), has sent him a message across six centuries: Help Me, Sam. The appeal of the novel, which is translated from French, comes from both well-drawn characters and a swiftly moving story. With the central mystery as yet unsolved, a villain still unmasked, and Sam's father in peril at the end, readers will be scrambling for the second book of the planned trilogy. Phelan, Carolyn
