TRP Channels as Therapeutic Targets: From Basic Science to Clinical Use

From Academic Press

TRP Channels as Therapeutic Targets: From Basic Science to Clinical Use is authored by experts across academia and industry, providing readers with a complete picture of the therapeutic potential and challenges associated with using TRP channels as drug targets.

This book offers a unique clinical approach by covering compounds that target TRP channels in pre-clinical and clinical phases, also offering a discussion of TRP channels as biomarkers.

An entire section is devoted to the novel and innovative uses of these channels across a variety of diseases, offering strategies that can be used to overcome the adverse effects of first generation TRPV1 antagonists.

Intended for all researchers and clinicians working toward the development of successful drugs targeting TRP channels, this book is an essential resource chocked full of the latest clinical data and findings.

- Contains comprehensive coverage of TRP channels as therapeutic targets, from emerging clinical indications to completed clinical trials
- Discusses TRP channels as validated targets, ranging from obesity and diabetes through cancer and respiratory disorders, kidney diseases, hypertension, neurodegenerative disorders, and more
- Provides critical analysis of the complications and side effects that have surfaced during clinical trials, offering evidence-based suggestions for overcoming them

Bonnie Camacho:

As a university student exactly feel bored in order to reading. If their teacher requested them to go to the library as well as to make summary for some e-book, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the educator want, like asked to go to the library. They go to there but nothing reading significantly. Any students feel that looking at is not important, boring along with can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country.
