Fluent Entity Framework (Fluent Learning) By *Rebecca M. Riordan*

A Fluent Learning Book

Based on the principles of cognitive science and instructional design, *Fluent Entity Framework*, part of the Fluent Learning series, is a true tutorial that will help you build effective working models for understanding a large and complex subject: developing Entity Framework applications using Visual Studio.

Most introductory books just talk at you and give you “exercises” that have more to do with taking dictation than actually learning. *Fluent Entity Framework* is different. It guides you through learning the way your mind likes to learn: by solving puzzles, making connections, and building genuine understanding instead of just memorizing random facts.

DETAILED INFORMATION ON HOW TO...

- Write .NET applications using Entity Framework 5.0
- Use all three of the supported Entity Framework workflows
- Create, extend, and query arbitrarily complex data models
- Use the Entity Framework Fluent API and T4 templates to create truly provider-independent data models

Editorial Review

About the Author

Rebecca M. Riordan has an international reputation as an author and application architect. Her ability to make complex technical subjects accessible and understandable has earned her books a devoted following. In 2004, her book, *Seeing Data: Designing User Interfaces for Database Systems Using .NET* was nominated for the prestigious Jolt award. She is also author of *Fluent C#*, *Fluent Visual Basic*, and *Designing Effective Database Systems*.

Users Review

From reader reviews:

Dewey Newkirk:

This book untitled Fluent Entity Framework (Fluent Learning) to be one of several books that will best seller in this year, honestly, that is because when you read this e-book you can get a lot of benefit in it. You will easily to buy this specific book in the book retailer or you can order it by way of online. The publisher in this book sells the e-book too. It makes you easier to read this book, as you can read this book in your Mobile phone. So there is no reason to you to past this e-book from your list.

Tony Hill:

This Fluent Entity Framework (Fluent Learning) is great book for you because the content which is full of information for you who also always deal with world and possess to make decision every minute. This kind of book reveal it facts accurately using great manage word or we can claim no rambling sentences within it. So if you are read this hurriedly you can have whole details in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with beautiful delivering sentences. Having Fluent Entity Framework (Fluent Learning) in your hand like getting the world in your arm, info in it is not ridiculous 1. We can say that no guide that offer you world in ten or fifteen tiny right but this e-book already do that. So , this is good reading book. Hi Mr. and Mrs. occupied do you still doubt that will?

Greg Little:

In this period globalization it is important to someone to obtain information. The information will make you to definitely understand the condition of the world. The health of the world makes the information quicker to share. You can find a lot of recommendations to get information example: internet, newspaper, book, and soon. You can view that now, a lot of publisher this print many kinds of book. The actual book that recommended to your account is Fluent Entity Framework (Fluent Learning) this guide consist a lot of the information with the condition of this world now. This particular book was represented so why is the world has grown up. The dialect styles that writer use to explain it is easy to understand. The actual writer made some exploration when he makes this book. That's why this book appropriate all of you.

Sylvia Medina:

As we know that book is important thing to add our understanding for everything. By a book we can know everything you want. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year seemed to be exactly added. This publication Fluent Entity Framework (Fluent Learning) was filled in relation to science. Spend your free time to add your knowledge about your scientific research competence. Some people has distinct feel when they reading a book. If you know how big selling point of a book, you can feel enjoy to read a guide. In the modern era like now, many ways to get book which you wanted.
