## Handbook of Cardiothoracic Surgery (Oxford Specialist Handbooks in Surgery) By Joanna Chikwe, Emma Beddow, Brian Glenville

This handbook of cardiothoracic surgery covers all areas of adult and paediatric, cardiac and thoracic surgery, and intensive care. It provides rapid on-the-spot access to practical management advice, and succinct overviews of most cardiothoracic procedures.

Every chapter is divided into topics presented across two pages to enable easy reference.

The advice is based on current evidence and guidelines, with references given where appropriate.

The book is practically oriented to provide reliable guidance on the intensive care and in theatre.

There is an excellent intensive care section with pages edged in red for immediate access.

The book has a full index, and a contents list tabled on the back-cover with page tabs to aid navigation.

The book is pocket-sized, with a durable, wipe-proof cover to ensure portability.

### **Editorial Review**

#### **Review**

This pocket-sized handbook...should be an essential resource for every doctor working in this specialty...it will be of value to all whose clinical work involves this specialty, including well-established consultants and nursing staff. The text is comprehensive, remarkably detailed and accurate. This is an excellent production that succeeds admirably...the book can be highly recommended. It should accompany, and be readily consulted by, all junior doctors in this specialty in their day-to-day work. Surgeon Vol 5, no 1 The positive features of this book are that it provides brief but clear explanations and rationale for most aspects of cardiothoracic surgery and can therefore be useful as a quick reference guide, particularly in clinical practice...throughout there are excellent diagrams...the anatomy and physiology sections are clear and easy to follow...it is a useful reference text to have in a ward or unit collection. British Journal of Cardiac Nursing Vol 1, no 7 This is an excellent book written for the junior surgeon embarking on a career in cardiac surgery. Doody's Journal
